Public Comment Period and Hearing: Chin Page Lift Station - Engineering Report/Environmental Information Document

Post Date: 08/20/2024 1:00 PM

The Board of Commissioners for the County of Durham will hold a Public Hearing on Monday, September 9, 2024, at 7:00 pm to receive comments on the Chin Page Road Lift Station Engineering Report (ER) and Environmental Information Document (EID). On behalf of the Utilities Division, CDM-Smith submitted the ER/EID to the North Carolina Department of Environmental Quality (NCDEQ) Division of Water Infrastructure (DWI) for their approval. See section titled Public Participation Options for details on commenting. The ER/EID are available for public review and comment, see them below in the linked documents section. Please contact Jerry Morrone, PE, project manager, at 919-451-3419 with questions or concerns.

Project Description

A new Chin Page Road Lift Station and associated piping has been recommended to increase sewer capacity in the Northeast Creek basin, which consists of the majority of Research Triangle Park (RTP) and surrounding areas. The current sewer infrastructure in this basin does not have sufficient capacity for proposed development, re-development, and future flows anticipated from the recently adopted Durham City-County Comprehensive Plan. The project entails construction of a 10.2 million gallon per day (MGD) lift station, approximately 1,000 feet of 30-inch gravity sewer influent to the lift station, 500 feet of 24-inch force main, and roughly 4,000 feet of 30-inch gravity mains. The project is being funded in part by DWI via a Clean Water State Revolving Fund loan in the amount of \$19,298,025. The loan will be repaid over a twenty (20) year period at a maximum interest rate of 1.16%. Additionally, the Board approved appropriating \$1,875,250 of Sewer Utility Enterprise Fund Fund Balance for pre-construction services at \$1,400,000, plus \$385,961 for the Clean Water State Revolving Fund loan fee, plus \$89,289 for Contingency.
