Community Child Protection/Child Fatality Prevention Team: Promotes the development of a community-wide approach to the problems of child abuse and neglect and seeks ways to protect children from preventable deaths. To accomplish this mission, the team works under procedures established by the director of the Durham DSS in collaboration with the director of the Durham County Department of Public Health. The team reviews selected cases that are being serviced by child protective services and cases in which a child had died of suspected abuse or neglect as the work of Community Child Protection. The team also reviews all additional child deaths, ages 0-17, through the Medical Examiner system as the work of Child Fatality Prevention. These child deaths are not due to suspected abuse and neglect and have no report for abuse and neglect to the Department of Social Services in the prior 12 months. Annual recommendations are presented to the Board of County Commissioners and the appropriate state Team Coordinator regarding any system improvements or needed resources where deficiencies may exist.
