**RE: 500 KW Generac Diesel Engine Generator**

We propose to install the Carotek provided baffles on the above referenced project for the lump sum of **Two hundred five thousand dollars (\$205,000.00).**

**Sewer**

Provide 1 Week Rental of Standby Generator	1.00 LS
Demolish Existing Generator and ATS	1.00 LS
Provide and Install ATS and 500 KW Generac Diesel Generator	1.00 LS

**Subtotal: \$205,000.00**

**Standby Generator Rental (Over one week)**

Per week rental	<b>Subtotal: \$ 4,025.00</b>
Diesel Fuel Per Gallon	<b>Subtotal: \$ 3.00</b>

**Exclusions:**

- All permits, fees and bonds.
- Rock Excavation.
- Removal / replacement of unsuitable soil.
- Landscaping, seeding, sod and mulch.
- Material testing and inspections.
- Handling of / removal of hazardous and/or contaminated material.
- Utility adjustments will be made one time only.
- Conflicts with unknown existing utilities.
- Bypass Pumping
- Painting

**Notes and/or Clarifications**

- New generator tank is larger than existing. We will need to repour pad and rotate 90° to fit is included
- Pricing assumes use of existing conduits to install feeder cabling
