

Durham County Board of Elections

Phase 2 GMP #4

June 13, 2025

June 13, 2025

County of Durham Attn: Brenda Hayes-Bright Project Manager / Assistant Public Art Coordinator Durham County Engineering Department & Environment Services 201 E. Main St, Suite 561, Durham, NC 27701 CC: Dan Nosbusch, Peri Manns, Glenn Parks, Charles Nickelson

Durham County Board of Elections RE: Phase 2 – GMP #4

Dear Ms. Brenda:

Samet with WC Construction is pleased to provide this Construction Manager at Risk proposal to you for Phase 2, GMP #4 of the above referenced project. This is based on the GMP #4 bid documents provided by RND Architects and their consultants, and the subcontractor bids received and read aloud at the public bid openings on 6/3/2025 and 6/12/2025.

We have prepared a comprehensive deliverable that includes the following information: GMP #4 Cost Summary, Drawing Log, Specification Log, Assumptions and Clarifications, Project Schedule, and Site Logistics Plan.

Upon your review of this proposal, feel free to reach out with any questions. Samet/WC Construction would be happy to meet and further discuss as needed.

Thank you for this opportunity, and we are looking forward to continued success on the Durham County Board of Elections project.

Sincerely, Samet with WC Construction

Joseph Mawhinney Project Manager, Sr.

Shoppes of Hope Valley - Board of Elections - Phase 2

DURHAM COUNTY – BOARD OF ELECTIONS

GMP #4 – Phase 2, Shoppes of Hope Valley Improvements 06/13/2025

The intent of this Assumptions & Clarifications Summary is to identify specific assumptions and clarifications regarding the Contract Documents as they pertain to the Samet/WC Construction GMP #4.

1. CLARIFICATIONS

- General:
 - 1. This estimate is based upon the Bid Documents as prepared by RND Architects, PA and their consultants, dated 3/27/2025, as well as Addendum #1 dated 5/16/2025.
 - 2. BIM modeling is excluded for this phase of work.
 - 3. North Carolina state and local sales taxes on materials have been excluded from this proposal, and are to be invoiced separately for reimbursement.
- Division 01:
 - 1. We have included a CMAR Contingency, as shown in our cost summary. Design/Owner Contingency is excluded from this GMP, as it will be held separately by the Owner.
 - An allowance for building permit fees has been included, as shown in our cost summary. Utility fees, tap fees, meter fees, DOT fees, road closures, environmental fees, etc. are excluded.
 - 3. We exclude special inspections, 3rd party inspections/testing, and commissioning. These items are to be provided by Owner. We will coordinate and schedule inspections as required.
 - 4. Site security services are excluded at this time.
 - 5. Additional monies for third party photographic/video construction documentation is excluded.
 - 6. We have included temporary roof access stair towers in the 01B General Trades bid package. Final locations to be determined and coordinated with Durham County.
 - 7. All bid packages include the working hours of Monday through Saturday from 7am-5pm. All work outside of these hours shall be considered off hours. We have included an allowance for off hours labor as shown in our cost summary. The need for off hours needs to be coordinated and finalized with Durham County and the property manager.
 - 8. Per the Owner's request, within the 01A Final Cleaning bid package, we have included pressure washing of all concrete sidewalks in front of the building, with the exception of the area in front of Board of Elections.
 - 9. We have included cleaning of tenant suites only as required as a result of our scope of work. We have excluded cleaning in area that we do not work in.
 - 10. We have included allowances within the 01B General Trades bid package for miscellaneous paint touch ups, ceiling repairs, etc. associated with areas impacted by our scope of work only. We shall document existing conditions prior to working within a tenant suite and after our work is completed. All other interior work is excluded.
- Division 02:
 - 1. No provisions have been made for any cost, expense, activity or responsibility relating to any hazardous substance used, stored, generated or disposed of by owner, its predecessors in title or any party acting on behalf, including any asbestos or PCB's incorporated into or present at the job site.

DURHAM COUNTY – BOARD OF ELECTIONS Phase 2 – Assumptions & Clarifications 09/05/2024

- Division 05:
 - 1. Structural steel modifications, additional structural support for rooftop units, etc. have been excluded. This estimate assumes that the existing buildings and structures are adequate for the new scope of work. An allowance for steel decking replacements has been included within the 07B Roofing bid package per the Bid Documents.
- Division 07:
 - 1. Prior to roof replacement, the Owner and/or property manager shall provide a list of miscellaneous tenant items on the roof that are to remain, such as satellite dishes, cable trays, etc. All unused items will be demolished and disposed of.
 - 2. Testing of existing underground storm drainage is limited to flowing water into the existing drain lines for a period of 15 minutes with a ³/₄ inch hose. Any work required as a result of deficiencies from this testing shall be addressed as a change order.
- Division 23:
 - 1. We have assumed that existing ductwork is in good working condition and can be reused and reconnected to the new rooftop units. Ductwork connections and insulation patching have been included only as necessary to accept the new units, curb adapters and/or extensions.
 - 2. We have included crane/rigging mobilizations per the attached project schedule only. Additional mobilizations that are required due to Owner, property manager, or tenant requirements may incur additional costs. We have assumed that we will be able to utilize the existing parking lot for rigging operations. Traffic/pedestrian control measures are included, and all logistics will be coordinated with Owner and property manager in advance.
 - 3. HVAC controls have been included as thermostat replacements only per the Bid Documents. We assume that existing infrastructure and wiring from the roof to the tenant spaces is in place and adequate to be re-used. We have excluded intrusive work within tenant spaces (e.g. drywall, ceilings, paint, etc.).
 - 4. We have excluded all seismic design parameters, such as seismic/wind restraints, calculations, etc.
 - 5. Per the Bid Documents, the HVAC Subcontractor will provide evaluation and testing of all existing rooftop units that are to remain. A report of these findings shall be submitted to the mechanical engineer and the Owner for review. An allowance of \$50,000 has been included within the bid package for any repairs or work that comes as a result of this testing and subsequent review.
 - 6. We have included HVAC unit replacements per the Bid Documents only. Due to the new roofing system, all existing units and associated curbs/rails will likely need to be raised. An allowance of \$50,000 has been included within the bid package for any unforeseen work associated with this scope, such as extending refrigerant lines.
- Division 26:
 - 1. The Fire Alarm scope of work consists of new duct-mounted smoke detectors and associated wiring and programming, per the Bid Documents. The condition of the existing Fire Alarm system is unknown at this time. Any additional Fire Alarm work may incur additional costs.
 - 2. We have excluded using the property manager's fire alarm vendor at this time, as that

DURHAM COUNTY – BOARD OF ELECTIONS Phase 2 – Assumptions & Clarifications 09/05/2024

information has not been provided. If a particular fire alarm vendor is required, we will obtain pricing from that vendor and address any cost delta as a change order.

- 3. The Electrical scope of work will consist of access to existing tenant suites and shutdowns of electrical panels. We do not know the extent of temporary power, HVAC, etc. required during these times due to continued coordination with the property manager. Thus, we have included a CMAR allowance for temporary utilities/conditioning as shown in our cost summary.
- 4. We have assumed that all existing electrical panels are in good working condition, and that the panels can accept the breaker types and sizes specified in the Bid Documents.
- 5. Add Alternate 001 has not been accepted and thus a new lighting control panel and all other items associated with the alternate are excluded.
