Once the Company has assumed defense of the Action, the Company will not be liable for any attorney or other professional fees or expenses incurred by Indemnitee, unless such fees or expenses are caused by Company's request for Indemnitee's assistance or result from Company's inability to resolve the action. Notwithstanding any other provision of this Contract, any Exhibit, or any related agreements or understandings, in no event shall the Company have any indemnity or defense obligation for Charges or any other amounts (a) that include, consist of, or are determined in reference to liquidated damages, or lost profits, lost revenues, loss of use, loss of reputation, or loss of goodwill. Any demand for indemnification or defense of an Action must be presented to the Company in writing with reasonable detail prior to the expiration of any statute of limitation applicable to the right to such indemnification.

If an Infringement Claim occurs, the Company shall either: (i) procure for the City the right to continue using the affected product or service; or (ii) repair or replace the infringing product or service so that it becomes non-infringing, provided that the performance of the overall product(s) and service(s) provided to the City shall not be adversely affected by such replacement or modification. If the Company is unable to comply with the preceding sentence within thirty (30) days after the City is directed to cease use of a product or service, the Company shall promptly refund to the City all amounts paid under this Contract for the products and services related to the infringement Claim.

DELIVERY AND WARRANTY

Delivery: Company must state the normal delivery time (in calendar days) and any options for expediting delivery: Haworth's normal delivery times vary according to product line; and may be impacted by other factors such as product mix and location. Haworth defines lead time as manufacture time plus transit time, and publishes a lead guide weekly with times broken down by product. A copy of the most recent lead time guide is included in our response on the following pages as supplemental information along with expedited delivery options.

Warranty: Company must detail the following:

- a. Applicable warranty and/or guarantees of furniture and installations including any conditions and response time for repair and/or replacement of any components during the warranty period.
- b. Warranty period start date. The City of Charlotte desires the warranty start at the time of substantial completion.
- c. Availability of replacement parts.
- d. Life expectancy of furniture under normal use.
- e. Detailed information as to proposed return policy on all furniture.

Required Form 4 – DELIVERY - SUPPLEMENTAL INFORMATION

6. Delivery: Company must state the normal delivery time (in calendar days) and any options for expediting delivery.

Haworth's standard lead times vary according to product line. Standard lead times are published weekly to our entire distribution network and are very reliable. We commit to our published lead times, we expedite orders upon request when possible, and we provide clients the solutions they need and expect. Haworth and its dealers often discuss customer expectations well before the order is formally placed. This aids everyone in scheduling, producing, and delivering the product when it is needed. Haworth's lead time guide includes manufacture time as well as transit time. An example of our most recent lead time guide is included on the following page.

Changes in project schedules are sometimes inevitable, and Haworth understands the need for flexibility. As soon as a need is identified, Purchasing Entities will contact the Project Manager at the Haworth dealership handling the account. Working cooperatively, the Haworth/dealer team will evaluate possible options and scenarios to arrive at the solution that best meets the customer's immediate needs. Solutions may include accelerating the shipment of an existing order or placing a RUSH order for product not yet ordered. Our team will also investigate additional avenues, such as modifying the installation schedule or providing loaner product. We take a team approach to providing you with the best option for the specific problem at hand.

RUSH, Haworth's short lead time program, provides customers the option of ordering selected products with accelerated manufacturing times. Products and finishes that are available as part of the RUSH program are denoted with a designated symbol on our website and in our price lists. RUSH orders leave Haworth within 10 business days of order acceptance. RUSH is a premium service, and discounting for products ordered via RUSH are typically four discount points lower.

Required Form 4 – WARRANTY - SUPPLEMENTAL INFORMATION

7. Warranty: Company must detail the following:

a. Applicable warranty and/or guarantees of furniture and installations including any conditions and response time for repair and/or replacement of any components during the warranty period.

Haworth has one of the strongest quality programs in the industry. We offer Limited Lifetime Warranty coverage which includes both parts and labor. Haworth also has a team of full-time Technical Representatives located in each region who will investigate any quality issues on-site, and make sure warranty claims are approved and processed quickly. Haworth takes warranty correction seriously and works diligently to resolve issues to our customers' complete satisfaction. All warranty claims are tracked through a Field Problem Report process, which allows our field technicians to closely monitor issues. Should a systemic product issue be identified, it is swiftly corrected, enabling Haworth to keep warranty claims to a minimum.

Regional dealers will manage all warranty and service requests with support from Haworth. When a product issue, warranty need, or other service request is communicated, the Haworth Command Center will begin the resolution process. Dealers will commit to responding to all service calls within 24 hours of receiving the request. Often, a diagnosis can be made via phone call or email exchange, eliminating the need for a visit entirely. If a site visit is required however, it will be scheduled as soon as possible at the customer's convenience. In either scenario, however, any issue presenting a safety risk will be responded to immediately. If the product is not useable, a plan will be developed to provide temporary alternatives until a permanent solution is found.

The steps involved in each scenario are outlined below:

Warranty Process A: Diagnosis made via phone, email, or on-site dealer inspection

- Discovery – customer contacts dealer Project Manager with notification of issue
- Diagnosis – if immediate diagnosis can be made and service parts are in stock, dealer will schedule service work at customer's earliest convenience. If parts are not in stock, an order will be generated and expedited through Haworth customer service.
- Repair or Replace – Service technician repairs or replaces product on-site as scheduled with customer. For warranty issues that require parts to be ordered, Dealer will advise customer on expected ship date and will schedule repair accordingly.

Required Form 4 – WARRANTY - SUPPLEMENTAL INFORMATION

7a. Applicable warranty and/or guarantees of furniture and installations including any... (continued)

Warranty Process B: Diagnosis cannot be made via phone, email, or on-site dealer inspection

- Discovery - customer contacts dealer Project Manager with notification of issue
- Site Visit – if immediate diagnosis cannot be made, dealer's service technician is scheduled to visit at a time convenient to customer
- Diagnosis – if the service technician can make a diagnosis during visit, parts are immediately ordered, and customer is notified when they arrive. If a diagnosis cannot be made, the product is brought back to dealer for further review.
- Repair or Replace – If issue can be corrected via repair, customer is notified when parts arrive, and product is repaired on-site at customer's earliest convenience. If product must be replaced, an order will be generated and expedited through Haworth's customer service team and delivered to customer upon receipt.

In either scenario, any issue presenting a safety risk will be responded to immediately. If the product is not useable, a plan will be developed to provide temporary alternatives until a permanent solution is found.

b. Warranty period start date. The City of Charlotte desires the warranty start at the time of substantial completion.

Haworth's warranty start date is always based upon the manufacture date, as this is the only way to verify the age of a product if there are issues in the future. Unlike mass produced products that may sit in warehouses for months before being purchased, Haworth products are built to order so the products you receive come with the assurance that they are newly manufactured. Due to the strength and duration of Haworth's limited lifetime warranty, the difference between the time of manufacture and time of substantial completion – even it is several months – is not significant enough to appreciably impact the protection granted by the warranty. Haworth values its customers and builds relationships based on trust. In the rare event that a product defect was identified within a very short period outside of the warranty program, we will always work with your organization to reach a suitable solution.

b. Availability of replacement parts

To alleviate potential down time due to the need for small repairs, all dealers will commit to keeping frequently replaced parts in stock (such as keys, casters, arm caps) as well as base feeds and small electrical parts to quickly fix or prepare a site for installation. Small replacement stock is often delivered and replaced on the same day it is requested.

7d. Life expectancy of furniture under normal use.

Industry standards define a lifetime as ten years of normal use. Because Haworth technicians and field personnel actively service the product we sell, we know that the actual lifetime of many of our products surpasses that ten-year standard. Haworth designs product to ANSI/BIFMA™ standards, which are based on an assumption of ten years of 40 hours per week use. Because Haworth knows its products are typically used for more than a single shift, our product testing, in most cases, goes beyond the industry standards, sometimes testing more than 3 times the amount required by the standard. We also monitor product performance in the workplace, which allows Haworth to adjust its designs to meet market needs.

Once designed and tested, however, many factors influence the actual useful lifetime of a product. In the list below, the higher the impact or presence of the factor, the shorter the lifespan past the standard of ten years.

1. Use more than 8 hours per day
2. Churn rate involving furniture moves over 40%
3. Dirty or dusty environments; direct exposure to sunlight
4. Lack of maintenance
5. High traffic or motion areas
6. Exposure to chemical or abrasive agents
7. Weight bearing more than testing standards

e. Detailed information as to proposed return policy on all furniture.

Haworth Product Returns

Haworth products are manufactured to customer orders. We do not stock or otherwise inventory product. Because products are made to order, our return policy is strict, and each request is evaluated on a case-by-case basis. Restocking fees and return freight cost may be applied, depending on circumstances. Haworth's policy is to accept product returns which are shipped as a result of a Haworth error. All returns are processed through the servicing dealer. We value our customers, and it is our goal to ensure their complete satisfaction with their purchase and procurement experience. If you are less than satisfied with a Haworth product, we, along with our dealers, will always work with your organization to find a solution that will ensure your satisfaction.

HAWORTH®

Great Expectations

You have them as a Haworth customer and so do we. And because we value our customers, we cover our products with this **Product Compatibility and Limited Warranty Policy**.

OUR COMMITMENT TO PRODUCT COMPATIBILITY – INTEGRATED PRODUCT PLATFORMS

As a market leader in the design and manufacture of workspaces that adapt to change, we strive to maintain product compatibility within our various generations of integrated product platforms. This benefits the customer who desires to update or modify their work environment. It also benefits the customer needing to replace a product due to damage or other reasons but which is no longer manufactured or is otherwise unavailable, such as a fabric or finish that is discontinued because of changing market preferences. In both circumstances, we often can provide products with comparable function and performance.

OUR COMMITMENT TO PRODUCT QUALITY – THE HAWORTH NORTH AMERICA LIMITED WARRANTY

To ensure customer satisfaction and peace of mind, we stand behind our products with the following Haworth North America Limited Warranty (“Limited Warranty”).

What Products are Covered?

This Limited Warranty applies to new products manufactured by Haworth, Inc. or Haworth, Ltd. (individually, “Haworth”) after January 1, 2019 that are sold to an end-user purchaser by Haworth or an Authorized Haworth Dealer (“Covered Products”). Covered Products also include new products manufactured by a company other than Haworth after January 1, 2019 that are sold to an end-user purchaser by Haworth or an Authorized Haworth Dealer as part of the Haworth Collection line of products, but only if such products are specifically listed below in the “What are the Warranty Periods? - Haworth Collection of Products” section of this Limited Warranty. For products manufactured on or before January 1, 2019, please refer to the applicable Haworth warranty published in the Haworth North America Price List when the product was purchased or contact your local Authorized Haworth Dealer.

In this Limited Warranty, the terms “us,” “we,” “our” and similar terms refer to Haworth, and an end-user purchaser refers to the first person who purchases a Covered Product for such person’s own internal use and not for resale or distribution.

The following products are excluded from the definition of “Covered Product” and not covered by this Limited Warranty, and neither Haworth nor its affiliates will have any obligation or liability relating to them: (a) software; (b) consumable items, such as batteries and bulbs/lamps; (c) the customer’s own material (COM), or any material specified by the purchaser that is not a standard Haworth product offering, such as Haworth Alliance fabrics, (d) other than Haworth Collection products not manufactured by Haworth as described above, any item manufactured by a third party from whom Haworth purchases the item for resale without incorporating it into a Haworth product as a component or part (in those situations, if the purchaser is not a direct beneficiary of the manufacturer’s warranty, then Haworth will assign to the purchaser any warranty that the manufacturer provides, to the extent the warranty is

assignable), and (e) Ergotron® products included in the Accessories North American Price List, regardless of whether incorporated into a Haworth product as a component or part (if the purchaser is not a direct beneficiary of any applicable Ergotron® warranty, Haworth will assign such warranty to the purchaser, to the extent assignable).

What Problems are Covered?

Subject to the terms of this Limited Warranty, Haworth warrants to the end-user purchaser of a Covered Product that the Covered Product, at the time of purchase, will be free of any defect in design or workmanship that materially impairs the performance or functionality of the Covered Product under normal use (a "Defect"). This warranty is for 24-hour / 7-day multiple shift use of the applicable Covered Product; for seating products, such use is by individuals up to 325 lbs. In this Limited Warranty, normal use means use of a Covered Product in accordance with all of the following: (a) Haworth's standards instructions, guidelines and recommendations for that Covered Product; (b) if the Covered Product is part of the Haworth Collection and not manufactured by Haworth, then the applicable manufacturer's standard instructions, guidelines, and recommendations for that Covered Product; and (c) applicable laws, rules, regulations and ordinances.

A Defect excludes, and Haworth and its affiliates will not have any responsibility or liability for, the following: (a) normal wear and tear; (b) any damage, wear or failure of the Covered Product that occurs during transport of the Covered Product, or that is caused by improper use, care or maintenance of the Covered Product or by an act of God or other event outside of Haworth's reasonable control; (c) the natural variation of color, grain or texture found in wood and leather; (d) the natural aging of materials such as wood, fabric and leather which results in colors changing over time or during use; (e) dye lot variations in fabric, leather or wall coverings; (f) the natural patina of leather during use; (g) "puddling" or wrinkling of fabrics, leather, or faux leather; (h) reverse crocking of dyes from clothing onto seating materials; (i) scratches, dents, abrasions or other surface damage to Hoop products; (j) change in color (including fading) or other surface effects resulting from exposure to chemicals (such as chemicals in cleaning solutions) or exposure to sunlight or other sources of ultraviolet rays; or (k) any damage, wear or failure of the Covered Product caused by the integration or use of any non-Haworth materials, components, devices or other products into or with any Covered Product.

What Remedies are Available?

If a purchaser makes a valid claim under this Limited Warranty for a Defect to a Covered Product, Haworth, at its option, will either (a) repair the Covered Product at Haworth's cost, (b) replace the Covered Product at Haworth's cost with a new or refurbished product with comparable function and performance, or (c) refund or credit the purchase price of the Covered Product (excluding taxes, duties, fees and other amounts). All repair and replacement work will be performed by Haworth or a third party engaged by Haworth to perform the specific repair or replacement work relating to the Defect; repair or replacement work performed by any other person will void this Warranty. Haworth will not be responsible for any cost or expenses incurred by the purchaser relating to repair or replacement of a Covered Product due to a Defect, including without limitation freight, insurance, inspection, storage and similar costs and expenses. Any Covered Product that is replaced or whose purchase price is refunded or credited will become the sole and exclusive property of Haworth.

What Conditions Apply?

All the following conditions must be satisfied to make a valid claim under this Limited Warranty for a Defect to a Covered Product:

- the purchaser must have notified Haworth in writing of the Defect within 30 days after the purchaser first learns or has notice of the Defect, and in any event not later than three (3) business days after the last day of the applicable warranty period; all such notices must be sent to Haworth at One Haworth Center, Holland, Michigan 49423, Attention: Customer Service/ Warranty Claims;
- the purchaser must provide original Haworth order number and have fully complied with all instructions, requirements, and directions provided by Haworth, an Authorized Haworth Dealer or their respective agents regarding (a) the inspection, preservation or safeguarding of the Covered Product and (b) the transportation and delivery of the Covered Product to Haworth or, if directed by Haworth, to an Authorized Haworth Dealer or other party;
- the Covered Product must have been installed by Haworth or an installer certified by Haworth to install that Covered Product;
- all prior repairs of the Covered Product must have been performed by Haworth or an installer certified by Haworth to install that Covered Product;
- the repair of the Defect of the Covered Product pursuant to this Warranty must be performed by Haworth or a third party engaged by Haworth to perform the specific warranty-repair work;
- at all times the Covered Product must have been located in a building that is (a) dry, fully closed-in and protected from the natural elements, and (b) adequately heated, ventilated and air conditioned to maintain an internal temperature between 40°F and 90°F (4°C and 32°C) and relative humidity levels between 25% and 55%;
- the Covered Product must not have been modified, and the purchaser must have used and maintained the Covered Product in full conformity with all of Haworth's written specifications, instructions and guides regarding use, care and maintenance;
- if the Covered Product is replaced or its purchase price is refunded, all bills of sale, assignments, releases, consents, approvals and other documents and/or actions required by Haworth to assign and transfer to Haworth sole and exclusive title in the Covered Product, free and clear of all liens, claims and encumbrances, must have been executed, delivered and/or made, as applicable; and
- all other conditions and requirements in or arising under this Limited Warranty, applicable law or a written agreement between Haworth and the purchaser, must have been fully satisfied.

What are the Warranty Periods?

A Covered Product's warranty period begins on the Covered Product's date of manufacture and ends on the expiration of the time period identified below for that particular Covered Product. In addition, the warranty period will automatically terminate at the time that the end-user purchaser ceases to solely own, possess, control and use the Covered Product.

- **Lifetime.** Except for those Covered Products or related components or materials identified below as having a different warranty period, the warranty period of a Covered Product is as long as the end-user purchaser continues to solely own the Covered Product.

² The tempering process for glass results in stronger glass and allows it to fracture into smaller, less harmful pieces when it breaks. Tempered glass often is referred to as "safety glass" because of this breakage feature. Although stronger, it is still important to handle tempered glass with care and avoid impact damage. Small impurities introduced during the tempering process or damage to edges during handling or use can result in spontaneous glass breakage at unpredictable times and are excluded from warranty coverage.

GENERAL TERMS

This Product Compatibility and Limited Warranty Policy extends solely to end-user purchasers of Covered Products and not to their successors, assigns, employees, agents or affiliates. This Policy is not assignable or transferable in whole or in part, whether voluntarily, by operation of law or otherwise, and any purported assignment or transfer will be void.

All such determinations made by Haworth will be final, non-appealable and binding on all persons.

This Limited Warranty gives the purchaser specific legal rights, and the purchaser may also have other rights which vary from state to state.

Identify outreach efforts that were employed by the firm to maximize inclusion of MWSBEs to be submitted with the firm's proposal.

While Haworth is neither a small business nor minority-owned, we have programs in place to foster and implement supplier diversity. We sell and distribute our product through a robust network of certified dealers, most of which are small businesses, and many of which fall under MWVBE classifications including MBE, WBE, VBE, and SDVOSB. In addition, Haworth actively seeks to increase the participation of minority, women-owned, and service disabled veteran-owned businesses in our procurement process. We have an annual goal of striving for a minimum of 10% of dollars spent with minority suppliers, and we track these figures monthly.

Identify outreach efforts that will be employed by the firm to maximize inclusion of MWSBEs to be submitted with the firm's proposal.

We are committed to identifying, developing, and working with diverse dealerships and other MWSBE suppliers and will continue current outreach efforts that will help our clients meet their own diverse spend objectives.

List below all MWSBEs that you intend to subcontract to while Performing the Services:

For services to the City of Charlotte, Haworth and its dealer PMC Commercial Interiors will partner with woman-owned firm, Synergy Installation Solutions in Charlotte, NC.

For services to other OMNIA Partners public agencies nationally, a complete listing of all MWSBEs within our national dealer network is included on the following page. All dealers will provide standard dealer services, including (but not limited to) design and specification, product management, order services, installation, warranty and other post-installation. Further, all Haworth dealers have the ability to subcontract with MWSBE businesses in their areas, increasing OMNIA Partners' ability to meet its minority spend objectives, however, as our dealers are independently owned and operated, we do not have access to the list of vendors with whom they may subcontract.

Dear Lisa Tarr:

The Office for Historically Underutilized Businesses (HUB Office) is pleased to inform you that your company is now certified as a Historically Underutilized Business. Your firm is listed in the Statewide Uniform Certification (SWUC) Program database. This certification will remain in effect for four (4) years from the date of this letter, contingent upon submission of your 'Annual Status Update Affidavit' each year prior to your certification renewal date. If you fail to submit the 'Annual Status Update Affidavit' your HUB Certification shall be Revoked.

You must notify the HUB Office in writing within 30 days of any changes affecting your compliance with SWUC Program eligibility requirements, including changes in ownership, day-to-day management and operational control. Failure to notify the HUB Office of these changes or reapply for certification in a timely manner may cause your HUB Certification to be revoked. Also, it is important to maintain current contact information such as address, telephone number, and email address in the SWUC Program database.

The HUB Office collaborates with local Minority/Women/Small Business (M/W/SBE) Offices who offer assistance to certified HUB firms with identifying contract opportunities with state and local government. Many of these offices also offer assistance with business development. Please visit our website at www.doa.nc.gov/hub/swuc.htm to locate the local office near you. Another great resource is the Small Business and Technology Development Center at www.sbtcd.org for free personalized business assistance and counseling.

It is important to note that although your status as a certified HUB firm greatly improves your access to state and local government contracts, this certification does not guarantee contract awards. Your ability to research opportunities and bid competitively will be important to your success in this program.

Thank you for your interest and participation in the SWUC Program as a Historically Underutilized Business firm with the State of North Carolina.

Sincerely,

Bradley Hicks

Energy Efficiency.

Low VOCs

Products should contain low or no volatile organic compounds (VOCs). Please indicate any VOC content in each applicable product offered in your proposal.

Haworth produces 133 low-emitting product lines. Since 2005 we have reduced our VOC emissions by 70%, GHG emissions by 20%, and energy use by almost 30%. More than 95% of our products are air quality certified (GREENGUARD®). GREENGUARD certificates for the products positioned in this response are available upon request.

Reduced Packaging.

Please include any efforts made to reduce the packaging of the products included in this proposal.

Haworth has successfully eliminated polystyrene from most packaging materials; it is currently used only in very small quantities (less than 5%) of product packaging where alternatives do not sufficiently protect the integrity of package contents. Haworth continues working toward the greening of the supply chain and eliminating packaging that is not recyclable. Paperboard protective posts and polyester banding contain 100% recycled content; and cartons, dividers, pads, and sheets are made from corrugated fiberboard that is 35%-40% recycled content. Protective pads, fillers, and dunnage are honeycomb and contain 20% recycled content. Each year Haworth introduces more stretch wrapping and blanket wrapping on selected product, further reducing raw material consumption and eliminating waste at the customer location. Our packaging engineers and transportation teams work together to seek new environmentally friendly packaging methods that can be implemented without compromising the level of protection provided while in transit.

Required Form 10 – ENVIRONMENTAL- SUPPLEMENTAL INFORMATION

Pollution Prevention.

Please state your company's policy on source reduction. The Pollution Prevention Act defines source reduction to mean any practice that: (1) Reduces the amount of any hazardous substance, pollutant or contaminant entering any waste stream or otherwise released into the environment (including fugitive emissions) prior to recycling, treatment or disposal, and (2) Reduces the hazards to public health and the environment associated with the release of such substances, pollutants or contaminants. The term includes: equipment or technology modifications, process or procedure modifications, reformulation or redesign of products, substitution of raw materials, and improvements in housekeeping, maintenance, training or inventory control.

Caring for our environment has been a long held, company-wide value. Haworth was the first office furniture manufacturer to achieve Zero Waste to Landfill status in all its global manufacturing facilities, and among the first to achieve 14001 certification. We maintain both ZWTL and ISO 14001 (along with ISO 9001) in all our owned manufacturing facilities worldwide. We continuously evaluate both our products and our production processes and we implement improvements at all stages, from design through end of life.

Haworth is committed to providing our customers with products that support safe and healthy environments, and to a policy of material chemistry transparency. Complying with applicable legal requirements on chemicals, such as REACH, is considered as minimum standard for all our operations. We are working diligently toward reducing potentially hazardous chemicals beyond regulatory restrictions associated with parts and materials we source. We anticipate the complete elimination of targeted hazardous chemicals as new safer, alternatives become commercially available.

Required Form 10 – ENVIRONMENTAL- SUPPLEMENTAL INFORMATION

Life Cycle Management.

Please state how many times your product may be reused. (Since reusable products generally require more upfront costs than disposable products, they are often subjected to a cost/benefit analysis in order to determine the life cycle cost).

Haworth products are designed for a long life of active and continuous use, and we offer one the strongest product warranties in the industry. Most products come with a lifetime warranty that is good for around the clock usage, and our most popular task seating is warrantied up to 400 pounds. Often, it is not the deterioration of Haworth product, but rather a desire for a new aesthetic, that drives customers to replace product. Many of our customers have had product in active use for more than two decades. Haworth's value proposition, Organic Workspace, allows customers to flex their environments as their organizational priorities shift, reducing the cost of realigning space to support ever-evolving business activities, and offering customers an even greater return on their investment. Unlike conventional spaces, Organic Workspaces are designed to embrace change, ensuring that your physical space, technology, and processes remain in alignment with your organizational and cultural goals.

End of Life Management.

Will the manufacturer or designee accept the product back at the end-of-life? (who pays for the transportation of the product may be situation-specific).

Haworth has a Seating Take-Back Program, which is offered on Zody and Very, two of the company's best-selling chairs in its task seating line. This program was established so that at the end of a Zody or Very chair's useful life, customers can simply ship it back to Haworth (customers cover the cost of return shipping). Depending on the model and options, we will be able to recycle up to 98% of the chair. Although we do not have a formal program in place to return other Haworth product, Haworth and our dealer partners are experienced in helping customers develop a comprehensive exit strategy for the removal of unwanted/outdated existing furniture. Aligned with our zero waste to landfill philosophy, we partner with several companies to find a second life for products – often through remanufacturing or charitable donations – with recycling considered as a last resort. Final solutions are typically a combination of all options, depending on the age, type, and marketability of existing furnishings. Further, if customers are replacing existing Haworth product with new Haworth product, we will work with your organization to develop a disposition program and assign a value to existing furniture that can be applied to new purchases. These options may also include discussion around the transportation costs of returning existing Haworth furniture.

A. Brief history and description of Company.

Haworth has been in business for more than 70 years. Driven by a dream to start his own business, G.W. Haworth, a high school industrial arts teacher, founded the company in 1948 under the name of Modern Products and operated it initially out of his family's garage. Still family-owned and privately held, Haworth operates in 120 countries, through 47 sales showrooms globally. With more than \$2 billion in sales, the company is financially strong, currently employing more than 7,000 people worldwide (nearly 4,000 people in the United States alone). SECTION 8 - EXHIBIT A - RESPONSE FOR NATIONAL COOPERATIVE CONTRACT

F. Describe any green or environmental initiatives or policies.

Haworth is an industry leader in sustainable practices. Caring for our environment has been a long held, company-wide value, and we are committed to constantly evaluating and improving our production processes and our products, from concept through end of life. Haworth was among the first in our industry to achieve ISO 14001 certification, and we currently maintain it in our owned manufacturing facilities worldwide. Since 2005, through our Environmental Management System (EMS) we have reduced our VOC emissions by 92%, GHG emissions by 20%, and energy use by almost 30%. We were also the first office furniture manufacturer to achieve Zero-Waste-to-Landfill status in all of our global manufacturing facilities. Since the inception of this initiative in 2009, we've successfully diverted 100% of our waste streams from landfill disposal. Haworth is now proactively targeting the reduction of material sent for Waste to Energy treatment. To date, less than 2% of our annual waste generated goes to waste to energy treatment.

Haworth's manufacturing facilities recycle water in wash lines, and the 45,000-sf roof on Haworth's corporate headquarters building is planted with flowering sedum to create a greenroof that provides more efficient heating and cooling of the building, reduces storm water runoff and CO₂ in the atmosphere, and increases biodiversity. We have also implemented sustainable practices into our transportation practices, including the use of SmartWay certified trucks, utilizing rail services, and combining shipments on one truck with multiple scheduled stops.

We are committed to providing our customers with products that support safe and healthy environments. Our products are composed of high-recycled content, have high recyclability at end of life, and more than 95% of our products are GREENGUARD Indoor Air Quality and/or BIFMA level certified for lower emissions. Most of our wood products are offered as FSC certified. With only a few exceptions, most Haworth product is manufactured locally for the market it serves - in the US for customers in North America, in Europe for European customers, and in Asia and India for the Asian Pacific market - resulting in lower fuel emissions and a reduced carbon footprint. We develop products that encompass Design for the Environment (DfE) strategies and create designs that integrate within and across product lines. This Integrated Palette™ approach results in interiors that are exceptionally well-suited to adapt as organizations evolve. Extending the life cycle of the workspace in this way not only creates a more sustainable environment for our customers, but also makes an enormous impact on their return on investment.

We actively prohibit materials of concern, including PVC, from new product offerings. Haworth has proactively identified 56 chemicals of concern in materials we source and has targeted them for removal from our standard product lines. These include chemicals commonly used in our industry such as PVC, benzidine dyes, ozone depleters, hexavalent chromium, and PBDE flame retardants. We have already made great strides in these reductions, and our standard product lines are nearly 100% free of these materials. Haworth is dedicated to continuously seeking

SECTION 8 - EXHIBIT A - RESPONSE FOR NATIONAL COOPERATIVE CONTRACT

F. Describe any green or environmental initiatives or policies. (continued)

greener, healthier material choices as new safer alternatives become technically and commercially available, and to being transparent about our progress in removing these chemicals from our product lines.

We help support the communities in which we do business by sourcing locally whenever possible which often results in reduced costs as well as a reduction of our carbon footprint. Environmental stewardship projects are numerous. Haworth also continues to support the 10 principles of the UN Global Compact with respect to Human Rights, Labor Rights, Anti-Corruption, and Environmental Protections.

Haworth publishes an annual Corporate Responsibility Report (formerly known as the Sustainability Report). For additional in-depth information on our sustainable policies and programs, as well as our commitment to social and ecological principles, the most recent report may be viewed on our corporate website at <http://www.haworth.com/company-info/sustainability>.

G. Describe any diversity programs or partners Company does business with and how Participating Agencies may use diverse partners through the Master Agreement. Indicate how, if at all, pricing changes when using the diversity program.

Haworth has an annual goal of ensuring that a minimum of 10% of dollars spent are with diverse-owned suppliers, and we track these figures monthly. For the past three years, we have averaged about 14% Tier 1 and Tier 2 diversity spend each year. Haworth does not participate in a diversity program that would impact customer pricing.

H. Describe any historically underutilized business certifications Company holds and the certifying agency. This may include business enterprises such as minority and women owned, small or disadvantaged, disable veterans, etc.

While Haworth is not a minority business, we can help our customers achieve their diverse spending objectives in two ways. We sell and distribute our product through a robust network of certified dealers, many of which represent historically underutilized businesses and fall under MWVBE classifications including SBE, MBE, WBE, VBE, and SDVOSB. These dealers can directly invoice for all Haworth products, installation and services, thus reporting at Level 1 tier. Because Haworth and our network of Haworth dealers are nationwide, we can meet requirements for local purchasing preferences throughout the country, and we are committed to continuing to identify, develop, and work with diverse dealerships.

SECTION 8 - EXHIBIT A - RESPONSE FOR NATIONAL COOPERATIVE CONTRACT

I. Describe how Company differentiates itself from its competitors.

There are three key aspects that set us apart from our competitors. The first is Organic Workspace,® our process for creating inspiring spaces and our perspective of workplace design. Organic Workspace enhances the effectiveness of people and the efficiency of real estate. A key component of this is our design point of view, we refer to as Performance + Desire, which encompasses elements of empathy, beauty, simplicity, performance, balance, and craft. This viewpoint led to the development of Haworth's Integrated Palette™ and a holistic portfolio of products (including systems, storage, tables, desking, and walls) that helps customers embrace change. Many of our product lines are designed to integrate not only on fabrics and finishes, but also on other factors (such as interconnectivity and scale), so that no matter how many times product is reconfigured, reused, or moved, the workspace will maintain a clean and cohesive appearance. Pieces can be moved, swapped, and rearranged, allowing customers to focus on a design that works for today, with the assurance that changes for future needs and evolving workstyles will be accomplished with minimal cost and effort. Products that are easily reused, rewired, and repurposed not only ease space reconfigurations by broadened application possibilities, but also retain their value, ultimately resulting in more sustainable spaces.

We are also the most global company in our industry. We manufacture product in the communities we serve, providing us with the ability to absorb knowledge, design acumen, and cultural diversity throughout a broad geographic range, which ultimately leads to even greater ability to serve our customers. We serve markets in more than 120 countries and employ more than 7000 people, nearly half of whom live outside of the United States. We operate 17 wholly-owned manufacturing facilities in 8 countries throughout North America, Asia, and Europe, and are the only global company whose owned manufacturing facilities are all Zero Waste to Landfill and ISO-certified, enabling greater control over quality.

Finally, among the major manufacturers in the contract furniture industry, only Haworth is still privately-owned. This autonomy frees us from the constraints of a corporate board and makes us accountable only to our customers and employees. Our customers benefit by our ability to implement rapid change if needed or flex our workforce according to customer demand. We also have greater capacity to make long-term investments to find new ways to solve for the needs of customers – now and in the future.

SECTION 8 - EXHIBIT A - RESPONSE FOR NATIONAL COOPERATIVE CONTRACT

J. Describe any present or past litigation, bankruptcy or reorganization involving Company.

Haworth is a large international company that is active all over the world and has commercial relationships with many organizations, including end-user customers, dealers, suppliers, governments, and competitors. Claims arise for a variety of reasons, including waste claims, product liability claims, contract disputes, dealer termination, supplier disputes, collection matters, and intellectual property disputes such as patent and/or trademark infringement. A review of all active claims indicate that these disputes have arisen in the ordinary course of business, will be resolved in the ordinary course and, in the judgment of Haworth's management, will have no material financial or operational impact on the company's ability to effectively service its customers.

K. Felony Conviction Notice: Indicate if the Company

- a. is a publicly held corporation and this reporting requirement is not applicable;
- b. is not owned or operated by anyone who has been convicted of a felony; or
- c. is owned or operated by and individual(s) who has been convicted of a felony and provide the names and convictions.

SECTION 8 - EXHIBIT A - RESPONSE FOR NATIONAL COOPERATIVE CONTRACT

B. Describe how Company proposes to distribute the Products/Services nationwide. Include any states where Products and Services will not be offered under the Master Agreement, including U.S. Territories and Outlying Areas.

Haworth products go to market via our national dealer network which provides local services to customers throughout the United States. With dealerships located in all states but Delaware, Maine, and Wyoming, Haworth provides products and services through its network of nearly 300 authorized and preferred dealers across the country. In North America, Haworth has established agreements (that are reviewed and negotiated annually) for transportation and delivery of Haworth product. Product delivery is coordinated by individual local dealers serving each Public Agency, and delivery is tracked by Haworth's customer service team. Haworth also provides products and services to all US Territories and Outlying Areas and the process for distribution is the same as it is for the Continental US.

C. Identify all other companies that will be involved in processing, handling or shipping the Products/Services to the end user.

All processing and handling from the point of placing the order to loading product onto containers is done by either Haworth or the local dealership serving the particular Public Agency. The transportation of all Haworth products to dealer warehouses or direct to end users is handled via a network of contracted asset-based carriers across parcel, less-than-truckload, full truckload, and intermodal. To ensure product consistently reaches its destination on time and undamaged our Logistics team continuously evaluates transportation practices and monitors carrier performance to provide outstanding results. Although we do not publicly release the names of individual carrier companies, each servicing dealer has full access to transportation data and will track the status of shipments and report back to the Public Agency as required.

D. Provide the number, size and location of Company's distribution facilities, warehouses and retail network as applicable.

In North America, all Haworth product is shipped from our 360,000 sq. ft. Distribution Center at Haworth's headquarters in Holland, Michigan. Haworth is a Just-in-Time manufacturer, meaning all products are manufactured to customer orders. As we do not stock product or otherwise keep inventory on hand, the need for addition warehouse space is negligible, however, all of our Preferred dealers have access to warehouse spaces, either owned or contracted, and can provide warehouse services for customers across the country, if requested. Haworth does not operate any retail spaces; all products are sold and distributed through its dealer network.

SECTION 8 - EXHIBIT A - RESPONSE FOR NATIONAL COOPERATIVE CONTRACT

3.3 Marketing and Sales

A. Provide a detailed ninety-day plan beginning from award date of the Master Agreement describing the strategy to immediately implement the Master Agreement as Company's primary go to market strategy for Public Agencies to Company's teams nationwide, to include, but not limited to:

- i. Executive leadership endorsement and sponsorship of the award as the public sector go-to-market strategy within first 10 days.
- ii. Training and education of Company's national sales force with participation from the Company's executive leadership, along with the OMNIA Partners team within first 90 days.

Haworth's executive leadership team will announce this award through various Haworth communication channels within the first ten days of award. Communication channels include Dealer Connect (a monthly video presentation sent to Haworth's 300-plus dealer network), various Haworth-specific Yammer groups (Haworth's internal social media vehicle), and direct emails to Haworth's nationwide sales management network. The award and company strategy in serving OMNIA Partners, will also be announced at various internal management meetings. Haworth's regional field sales personnel will call on public agencies on regular intervals to provide program overviews and updates.

Tony Mayone, Haworth's Vice President, North American Business, is the executive sponsor of this contract, and has worked directly with Tim Hodges, the Sales and Marketing Program Manager dedicated to this contract, to develop training that enables our dealers to best serve the various agencies under the Master Agreement. Future training will be developed in collaboration with OMNIA Partners. In anticipation of transitioning service to OMNIA Partners, training to Haworth's dealer network that previously serviced US Communities customers has already begun. Ongoing training will occur at dealer physical locations and through WebEx teleconference meetings and includes explanation of the transition process from current Lead Agency Fairfax County to the City of Charlotte as Lead Agency. To date, four nationwide dealer teleconferences have been conducted with over 150 Haworth dealer and Haworth salespeople attending these training events. In addition, numerous dealer training sessions have been conducted at dealer locations throughout the US. Our training strategy will continue if awarded this contract.

- v. Commitment to attend, exhibit and participate at the NIGP Annual Forum in an area reserved by OMNIA Partners for partner suppliers. Booth space will be purchased and staffed by Company. In addition, Company commits to provide reasonable assistance to the overall promotion and marketing efforts for the NIGP Annual Forum, as directed by OMNIA Partners.

He will work closely with other departments at Haworth (Marketing, Public Relations, Field Sales, Dealer Development) to develop processes and marketing collateral to be made available to both existing Public Agency customers, as well as prospective ones. All marketing and promotion will be conducted within the terms and methods set forth in the RFP.

SECTION 8 - EXHIBIT A - RESPONSE FOR NATIONAL COOPERATIVE CONTRACT

B. Provide a detailed ninety-day plan beginning from award date of the Master Agreement describing the strategy to market the Master Agreement to current Participating Public Agencies...
(continued)

Upon award, Haworth will work with the OMNIA Partners' Cooperative Purchasing Program to develop a co-branded news release. Haworth will release it at a date and time agreed upon by all stakeholders (within the first 10 days of award). The announcement will be sent to various trade publications, posted on the Media Room at Haworth.com, and publicized via internal and external social media channels. Further, Haworth has several intranet website options that provide outstanding communication tools, and the award, along with all required contract details and contact information will be published on those sites on the day of the official contract award.

Conference and trade show attendance and participation will be an important element of managing the project. Tim Hodges attended OMNIA Partners' national conference in July, and he will continue to ensure Haworth is actively participating in future national conferences and regional events, including the NIGP Annual Forum and NPI Conferences. Haworth will be further represented at regional events and trade shows throughout the year by Haworth field sales members and representatives of Haworth's extensive dealer network that service and support local Public Agencies.

Working in close collaboration with OMNIA Partners' marketing department, Haworth will begin development of co-branded marketing material within 2 weeks of contract award, with completion of all collateral within the first 90 days of award notification. Haworth has extensive experience in co-branding marketing materials for contracts, including government contracts. Given the potential sales associated with the City of Charlotte and other OMNIA Partners projects, these co-branded materials will be given high priority for completion and distribution.

SECTION 8 - EXHIBIT A - RESPONSE FOR NATIONAL COOPERATIVE CONTRACT

C. Describe how Company will transition any existing Public Agency customers' accounts to the Master Agreement available nationally through OMNIA Partners. Include a list of current cooperative contracts (regional and national) Company holds and describe how the Master Agreement will be positioned among the other cooperative agreements.

Haworth's transition of existing Public Agency customers' accounts from US Communities to the Master Agreement for OMNIA Partners has already been implemented and was completed in the spring of 2019. Tim Hodges, the Program Manager, is available to respond to any individual questions Public Agencies may have. As a just-in-time manufacturer with extensive manufacturing capacity, the need to prioritize one customer's work against another is eliminated. Due to the anticipated volume of OMNIA Partners sales, however, we have resources in place to ensure OMNIA Partners' Master Agreement is executed with constant attention, and all orders are tracked at every stage from order entry through installation. Haworth will meet all delivery requirements, even for large volume projects occurring simultaneously in multiple locations. Our North American manufacturing plants utilize state of the art technology, and capacity exceeds \$20 million per week. Our dedicated project team will have direct access to corporate specialists to help service and support your project, including product experts, engineers, and customer service representatives. Because we build everything to order (rather than the traditional forecasting and stocking that "fill rate" normally implies), our fill rate requirement is 100%.

D. Acknowledge Company agrees to provide its logo(s) to OMNIA Partners and agrees to provide permission for reproduction of such logo in marketing communications and promotions. Acknowledge that use of OMNIA Partners logo will require permission for reproduction, as well.

Haworth agrees to provide continued use of its logo to OMNIA Partners, within the terms as stated, throughout the term of the contract.

E. Confirm Company will be proactive in direct sales of Company's Products and Services to Public Agencies nationwide and the timely follow up to leads established by OMNIA Partners. All sales materials are to use the OMNIA Partners logo. At a minimum, the Company's sales initiatives should communicate:

- i. Master Agreement was competitively solicited and publicly awarded by a Principal Procurement Agency;
- ii. Best government pricing;
- iii. No cost to participate; and
- iv. Non-exclusive contract.

Haworth agrees to continue to proactively support direct sales of its products and follow up on leads per the terms set forth in the RFP.

H. Describe in detail how Company's national sales force is structured, including contact information for the highest-level executive in charge of the sales team.

Haworth's highest executive overseeing company sales is Todd James, Vice President Global Sales.

I. Explain in detail how the sales teams will work with the OMNIA Partners team to implement, grow and service the national program.

Haworth's field sales personnel will call on participating Public Agencies on regular intervals to provide program overviews and updates. They will also reach out to non-participating agencies and provide information on the Master Agreement and the benefits of participation. In addition, Haworth will participate in any conference where sellers can support the value we bring, such as the NIGP Annual Forum, or any other regional seminars or conferences for procurement professionals.

J. Explain in detail how Company will manage the overall national program throughout the term of the Master Agreement, including ongoing coordination of marketing and sales efforts, timely new Participating Public Agency account set-up, timely contract administration, etc.

Tim Hodges, (Haworth's dedicated Sales and Marketing Program Manager for the OMNIA Partners account) has nearly two decades of project management experience, more than five of which have been managing large accounts at Haworth, including US Communities. OMNIA Partners will benefit from our long-term experience (18+ years) working with the US Communities account as there is an existing substructure in place to manage the Master Agreement. Although it will be modified to meet the specific needs and requirements of OMNIA Partners, there is already a process in place to coordinate marketing and sales efforts. Tim works alongside a team of other Haworth professionals who assist in marketing, administer the contract, set up new participating public agencies, and report monthly to OMNIA Partners. He will continue to provide ongoing dealer training (either live or via teleconference communication tools) to ensure the entire team is well-positioned to implement the contract to its fullest potential.

SECTION 8 - EXHIBIT A - RESPONSE FOR NATIONAL COOPERATIVE CONTRACT

The following options are available when responding to a solicitation for Products covered under the Master Agreement.

OMNIA Partners Requirements – Exhibit A**OMNIA PARTNERS EXHIBITS****EXHIBIT A – RESPONSE FOR NATIONAL COOPERATIVE CONTRACT****1.0 Scope of National Cooperative Contract**

Capitalized terms not otherwise defined herein shall have the meanings given to them in the Master Agreement or in the Administration Agreement between Supplier and OMNIA Partners.

1.1 Requirement

The City of Charlotte (hereinafter defined and referred to as “Principal Procurement Agency”), on behalf of itself and the National Intergovernmental Purchasing Alliance Company, a Delaware corporation d/b/a OMNIA Partners, Public Sector (“OMNIA Partners”), is requesting proposals for Furniture, Installation and Related Products and Services. The intent of this Request for Proposal is any contract between Principal Procurement Agency and Company resulting from this Request for Proposal (“Master Agreement”) be made available to other public agencies nationally, including state and local governmental entities, public and private primary, secondary and higher education entities, non-profit entities, and agencies for the public benefit (“Public Agencies”), through OMNIA Partners’ cooperative purchasing program. The Principal Procurement Agency has executed a Principal Procurement Agency Certificate with OMNIA Partners, an example of which is included as Exhibit D, and has agreed to pursue the Master Agreement. Use of the Master Agreement by any Public Agency is preceded by their registration with OMNIA Partners as a Participating Public Agency in OMNIA Partners’ cooperative purchasing program. Registration with OMNIA Partners as a Participating Public Agency is accomplished by Public Agencies entering into a Master Intergovernmental Cooperative Purchasing Agreement, an example of which is attached as Exhibit C. The terms and pricing established in the resulting Master Agreement between the Company and the Principal Procurement Agency will be the same as that available to Participating Public Agencies through OMNIA Partners.

All transactions, purchase orders, invoices, payments etc., will occur directly between the Company and each Participating Public Agency individually, and neither OMNIA Partners, any Principal Procurement Agency nor any Participating Public Agency, including their respective agents, directors, employees or representatives, shall be liable to Company for any acts, liabilities, damages, etc., incurred by any other Participating Public Agency. Supplier is responsible for knowing the tax laws in each state.

This Exhibit A defines the expectations for qualifying Companies based on OMNIA Partners’ requirements to market the resulting Master Agreement nationally to Public Agencies. Each section in this Exhibit A refers to the capabilities, requirements, obligations, and prohibitions of competing Companies on a national level in order to serve Participating Public Agencies through OMNIA Partners.

These requirements are incorporated into and are considered an integral part of this RFP. OMNIA Partners reserves the right to determine whether or not to make the Master Agreement awarded by the Principal Procurement Agency available to Participating Public Agencies, in its sole and absolute discretion, and any party submitting a response to this RFP acknowledges that any award by the Principal Procurement Agency does not obligate OMNIA Partners to make the Master Agreement available to Participating Procurement Agencies.

Section 8

OMNIA Partners Requirements – Exhibit A

1.3 Estimated Volume

The dollar volume purchased under the Master Agreement is estimated to be approximately \$300M annually. While no minimum volume is guaranteed to Company, the estimated annual volume is projected based on the current annual volumes among the Principal Procurement Agency, other Participating Public Agencies that are anticipated to utilize the resulting Master Agreement to be made available to them through OMNIA Partners, and volume growth into other Public Agencies through a coordinated marketing approach between Company and OMNIA Partners.

Section 8

OMNIA Partners Requirements – Exhibit A

1.4 Award Basis

The basis of any contract award resulting from this RFP made by Principal Procurement Agency will, at OMNIA Partners option, be the basis of award on a national level through OMNIA Partners. If multiple Companies are awarded by Principal Procurement Agency under the Master Agreement, those same Companies will be required to extend the Master Agreement to Participating Public Agencies through OMNIA Partners. Utilization of the Master Agreement by Participating Public Agencies will be at the discretion of the individual Participating Public Agency. Certain terms of the Master Agreement specifically applicable to the Principal Procurement Agency are subject to modification for each Participating Public Agency as Company, such Participating Public Agency and OMNIA Partners shall agree. Participating Agencies may request to enter into a separate supplemental agreement to further define the level of service requirements over and above the minimum defined in the Master Agreement (i.e. invoice requirements, order requirements, specialized delivery, diversity requirements such as minority and woman owned businesses, historically underutilized business, governing law, etc.). It shall be the responsibility of the Company to comply, when applicable, with the prevailing wage legislation in effect in the jurisdiction of the Participating Agency. It shall further be the responsibility of the Company to monitor the prevailing wage rates as established by the appropriate department of labor for any increase in rates during the term of this contract and adjust wage rates accordingly. Any supplemental agreement developed as a result of the Master Agreement is exclusively between the Participating Agency and the Company (Contract Sales are reported to OMNIA Partners).

All purchase orders issued and accepted by the Company may survive expiration or termination of the Master Agreement. Participating Agencies' purchase orders may exceed the term of the Contract if the purchase order is issued prior to the expiration of the Contract. Company is responsible for reporting all sales and paying the applicable administrative fee for sales that use the Master Agreement as the basis for the purchase order, even though Master Agreement may have expired.

- B. Establish the Master Agreement as the Company's primary go to market strategy to Public Agencies nationwide;

The decision to award a contract or subcontract must be conditioned upon the acceptance of the wage determination. The non-Federal entity must report all suspected or reported violations to the Federal awarding agency. Please refer back to these instructions for the appropriate links, as the Local Finance Notices include links that are no longer operational.

1. The disclosure is required for all contracts in excess of \$17,500 that are **not awarded** pursuant to a “fair and open” process (N.J.S.A. 19:44A-20.7).
2. Due to the potential length of some contractor submissions, the public agency should consider allowing data to be submitted in electronic form (i.e., spreadsheet, pdf file, etc.). Submissions must be kept with the contract documents or in an appropriate computer file and be available for public access. **The form is worded to accept this alternate submission.** The text should be amended if electronic submission will not be allowed.
3. The submission must be **received from the contractor and** on file at least 10 days prior to award of the contract. Resolutions of award should reflect that the disclosure has been received and is on file.
4. The contractor must disclose contributions made to candidate and party committees covering a wide range of public agencies, including all public agencies that have elected officials in the county of the public agency, state legislative positions, and various state entities. The Division of Local Government Services recommends that contractors be provided a list of the affected agencies. This will assist contractors in determining the campaign and political committees of the officials and candidates affected by the disclosure.
 - a. The Division has prepared model disclosure forms for each county. They can be downloaded from the “County PCD Forms” link on the Pay-to-Play web site at <http://www.nj.gov/dca/divisions/dlgs/programs/lpcl.html#12>. They will be updated from time-to-time as necessary.
 - b. A public agency using these forms **should edit them to properly reflect the correct legislative district(s)**. As the forms are county-based, **they list all legislative districts** in each county. **Districts that do not represent the public agency should be removed from the lists.**
 - c. Some contractors may find it easier to provide a single list that covers all contributions, regardless of the county. These submissions are appropriate and should be accepted.
 - d. The form may be used “as-is”, subject to edits as described herein.
 - e. The “Contractor Instructions” sheet is intended to be provided with the form. It is recommended that the Instructions and the form be printed on the same piece of paper. The form notes that the Instructions are printed on the back of the form; where that is not the case, the text should be edited accordingly.
 - f. The form is a Word document and can be edited to meet local needs, and posted for download on web sites, used as an e-mail attachment, or provided as a printed document.
5. It is recommended that the contractor also complete a “Stockholder Disclosure Certification.” This will assist the local unit in its obligation to ensure that contractor did not make any prohibited contributions to the committees listed on the Business Entity Disclosure Certification in the 12 months prior to the contract (See Local Finance Notice 2006-7 for additional information on this obligation at http://www.nj.gov/dca/divisions/dlgs/resources/lfns_2006.html). A sample Certification form is part of this package and the instruction to complete it is included in the Contractor Instructions. NOTE: This section is not applicable to Boards of Education.

C. 271 POLITICAL CONTRIBUTION DISCLOSURE FORM

Contractor Instructions

Business entities (contractors) receiving contracts from a public agency that are NOT awarded pursuant to a “fair and open” process (defined at N.J.S.A. 19:44A-20.7) are subject to the provisions of P.L. 2005, c. 271, s.2 (N.J.S.A. 19:44A-20.26). This law provides that 10 days prior to the award of such a contract, the contractor shall disclose contributions to:

- any State, county, or municipal committee of a political party
- any legislative leadership committee*
- any continuing political committee (a.k.a., political action committee)
- any candidate committee of a candidate for, or holder of, an elective office:
 - of the public entity awarding the contract
 - of that county in which that public entity is located
 - of another public entity within that county
 - or of a legislative district in which that public entity is located or, when the public entity is a county, of any legislative district which includes all or part of the county

The disclosure must list reportable contributions to any of the committees that exceed \$300 per election cycle that were made during the 12 months prior to award of the contract. See N.J.S.A. 19:44A-8 and 19:44A-16 for more details on reportable contributions.

N.J.S.A. 19:44A-20.26 itemizes the parties from whom contributions must be disclosed when a business entity is not a natural person. This includes the following:

- individuals with an “interest” ownership or control of more than 10% of the profits or assets of a business entity or 10% of the stock in the case of a business entity that is a corporation for profit
- all principals, partners, officers, or directors of the business entity or their spouses
- any subsidiaries directly or indirectly controlled by the business entity
- IRS Code Section 527 New Jersey based organizations, directly or indirectly controlled by the business entity and filing as continuing political committees, (PACs).

When the business entity is a natural person, “a contribution by that person’s spouse or child, residing therewith, shall be deemed to be a contribution by the business entity.” [N.J.S.A. 19:44A-20.26(b)] The contributor must be listed on the disclosure.

Any business entity that fails to comply with the disclosure provisions shall be subject to a fine imposed by ELEC in an amount to be determined by the Commission which may be based upon the amount that the business entity failed to report.

The enclosed list of agencies is provided to assist the contractor in identifying those public agencies whose elected official and/or candidate campaign committees are affected by the disclosure requirement. It is the contractor’s responsibility to identify the specific committees to which contributions may have been made and need to be disclosed. The disclosed information may exceed the minimum requirement.

The enclosed form, a content-consistent facsimile, or an electronic data file containing the required details (along with a signed cover sheet) may be used as the contractor’s submission and is disclosable to the public under the Open Public Records Act.

The contractor must also complete the attached Stockholder Disclosure Certification. This will assist the agency in meeting its obligations under the law. **NOTE: This section does not apply to Board of Education contracts.**
