Every provision in this contract that violates the parties' intent expressed in the preceding sentence shall be construed and revised to the extent that it is lawful in order to make the provision conform with such intent.
- (h) **Insurance Contracts and Bonds.** This Section does not affect an insurance contract, workers' compensation, or any other agreement issued by an insurer; and this Section does not apply to lien or bond claims asserted under Chapter 44A of the N.C. General Statutes.
- (i) **Other Provisions.** Every provision in this contract that violates subsection (d) (Restriction regarding Indemnitees' Negligence), subsection (e) (Restriction regarding Fault in Construction Agreements and Design Professional Agreements), or subsection (f) (Restriction Regarding Negligence of Design Professionals) shall be construed and revised to the extent that it is lawful in order to make the provision conform with those subsections.

Section. 8.3. Insurance. The SUBRECIPIENT shall maintain insurance not less than the following:

SUBRECIPIENT shall procure and maintain for the duration of the contract the following insurance coverage from an insurance company(s) possessing a rating of A-VII or higher from the A.M. Best Company and licensed to do business in North Carolina. All of the policies required of the SUBRECIPIENT shall contain a waiver of subrogation provision to waive all rights of recovery under subrogation or otherwise against the COUNTY. In the event SUBRECIPIENT'S Insurance Policy or Certificate of Insurance conflicts with the aforesaid language concerning "waiver of subrogation" this contract shall govern. SUBRECIPIENT shall advise the COUNTY of any cancellation, non-renewal, or material change in any policy within ten (10) days of notification of such action and provide updated certificates of insurance evidencing renewals within fifteen (15) days of expiration. By requiring insurance herein, the COUNTY does not represent that coverage and limits will necessarily be adequate to protect SUBRECIPIENT, and such coverage and limits shall not be deemed as a limitation on

SUBRECIPIENT's liability under the indemnities granted to the COUNTY in this Contract. SUBRECIPIENT shall provide the COUNTY a valid certificate of insurance, in advance of the performance of any work, exhibiting coverage required. SUBRECIPIENT shall require and verify that all subcontractors maintain insurance meeting all the requirements stated herein.

The failure of the COUNTY at any time to enforce the insurance provisions, to demand such certificates of insurance, or to identify a deficiency shall not constitute a waiver of those provisions, nor reduce obligations of the SUBRECIPIENT to maintain such insurance or to meet its obligations under the indemnification provisions. Notwithstanding the foregoing, nothing contained in this section shall be deemed to constitute a waiver of the governmental immunity of the COUNTY, which immunity is hereby reserved to the COUNTY.

Section. 8.4. Choice of Law and Forum; Service of Process. Exhibit B: Scope of Work

Purpose:

Our mission is to empower, strengthen, and educate youth particularly students who attend high poverty and low-performing schools in a safe environment during non-school hours that encourages participation in science, technology, engineering, math (STEM), Literacy, Wellness, and Integrated Arts.

Impact:

Purpose Learning Lab aims to address opportunity gaps and access to enrichment and recreational activities and to provide scholarships to offset or fully fund the cost of attending STEM & Purpose Living Wellness Programs for historically marginalized students in Durham County. This strategy will enhance student access to STEM and social and emotional learning by providing evidence-based curriculums and onsite learning labs during the academic year and summer camp for school-aged students in Durham County.

The services will include summer camp, drop-in, and after school care enrichment and recreational activities. Programming will consist of STEM enrichment activities to improve science, math, technology, engineering, robotics, and chemistry competencies. Programming will also consist of Social Emotional Learning (SEL) activities to enhance problem-solving, teamwork, relationship skills, self-management, self-esteem, and self-awareness. The targeted population will include historically marginalized racial/ethnic and socioeconomic groups and students receiving academic accommodations through IEP/504 specialized instruction in Durham County. African Americans and non-Hispanic whites make up roughly 39% of the population, and Asian residents make up the next most significant racial/ethnic group. These students are more likely to struggle academically and experience barriers to accessing education and enrichment opportunities because disadvantaged families or experiencing significant economic hardships do not have the financial resources to invest in enrichment activities for their children. Many low-income students lack resources and do not have access to technology at home, and these gaps create an academic divide that can impact upward mobility later in life. The COVID-19 pandemic has exacerbated education gaps and widened inequities in enrichment and educational opportunities due to the economic barriers that families are facing amid the COVID-19 pandemic and current recession.

It's no secret that the pandemic has upended the lives and mental wellness of everyone around the world. Our goal is to provide an array of services for the community that empower students to discover their innate ability to succeed and ignite a passion for learning. The Purpose Learning Lab STEM & Wellness project is targeted to improve academic, wellness, and learning outcomes for youth including those that live in economically disadvantaged or low-income households within the city of Durham. Our program provides a safe, stimulating environment for children (who may otherwise be unsupervised during these times) in the afternoons and during school holidays where they are actively supported to perform well at school, increase their well-being, and be caring, active members of their community. Our goal is to create pathways that ignite confidence, encourage hands-on innovation, academic advancement, and prepare students to pursue STEM & Integrated Art careers. Our enrichment program enables students to maximize their potential. Through educational enrichment programs, students can develop a sense of self-awareness and understand their schoolwork better with enrichment programs that are in line with the school curriculum.

Many underrepresented and underserved students lack resources and do not have access to enrichment activities such as STEM. These opportunity gaps create an academic divide that can impact upward mobility later in life.

Purpose Learning Lab's work is anchored in equity to ensure children and families from marginalized communities are prioritized and elevated through our activities and wellness programs. Our approach is to ensure our programs are designed to ignite interest in STEM activities at an early age for students. Teaching STEM in the early years enables children to make those vital connections between everyday life and the STEM disciplines. It also builds the foundation for future academic success because the skills learned are transferable to other subjects (Learning Liftoff, 2019). We aim to reach diverse students and communities to champion change and empower historically underrepresented populations with greater academic opportunities to achieve brighter futures (PPG, 2021). Our proposed STEM program will also encourage them to pursue advanced learning opportunities and expose them to potential careers in STEM.

The Purpose Learning Lab STEM & Wellness program will provide curriculum-enhanced onsite learning labs during the academic year (after-school and out-of-school time) and a summer camp for K-8 students in Durham, North Carolina. Activities will promote learning and provide hands-on enrichment opportunities to increase academic achievement in science and math. The proposed project will accomplish the following goals: 1) Promote

enthusiasm in science and mathematics 2) Encourage students to pursue careers in STEM 3) Build self-esteem, 4) Improve SEL & Learning Outcomes. Purpose Learning Lab counselors and staff will serve as mentors and provide support to students throughout the program. We will offer weekly themed activities in Engineering, Robotics, Chemistry, Integrated Arts, and Science during our onsite learning labs. Each activity and learning lab are designed and customized to meet each child's ability and educational level. Activities will encourage students to test their problem-solving and critical- thinking skills. Our objective is to offer innovative activities to build math and scientific skills that promote teamwork and improve learning outcomes. During the onsite learning labs, students will be able to explore inquiry-based approaches to STEM activities and explain their observations. They will participate in activities such as aerodynamics, photosynthesis, use recycled materials to build robots, and learn the engineering design process to gain further knowledge about STEM.

Our summer camp, Camp Purpose will focus on teamwork and provide innovative group activities to further enhance interest in STEM. This year's themes are, "Cultivating the Next Generations of Leaders, Innovators, and World Changers." (K-3) will be identified as Camp Ambition while (Grades 4-8) will be identified as Camp Resilient. Both groups will commence with an award ceremony and opportunity for students to showcase their accomplishments. Parents can celebrate their child's success and see the endless career opportunities available in STEM. This showcase will provide students the opportunity to practice communicating their ideas to an audience, provide them with real world experience, and encourage them to pursue careers in STEM. STEM is an investment in the future of our children. Our STEM program will prepare youth to meet the future demands of current and emerging industries.
