**18-0941****Additional Funding for Repair and Maintenance of Fire Apparatus****Agenda Text:**

The Board is requested to authorize the encumbrance of an additional \$2,055 beyond the currently approved amount of \$67,000 for the interlocal contract with the City of Durham to provide repair services for Durham County Fire Rescue (DCFR) fire apparatus. The new total encumbrance for repair services will be \$69,055 for Fiscal Year (FY) 2017-2018.

On May 14, 2018 the Board approved an additional \$27,000 above the County Manager's authorized amount of \$40,000 (total amount \$67,000) for unanticipated maintenance and repair of DCFR fire apparatus. One invoice remains open for fire apparatus repair services rendered prior to July 1, 2018 which requires additional funding (\$2,055). Funds are available in the FY 17-18 DCFR budget to cover the additional encumbrance, and additional funding is not needed from the DCFR fire service district tax.

Repair costs for the older DCFR vehicles that were not on a regular maintenance schedule prior to becoming part of DCFR have increased. Four out of the five first line ladder trucks or engines that DCFR operated were manufactured prior to 1991. The National Fire Protection Association (NFPA) 1911 guideline states that apparatus manufactured prior to 1991 and over 25 years old should be placed in reserve status if properly maintained.

**18-0932****Discussion of Proposal for Community Development Block Grant (CDBG) Neighborhood Revitalization Grant****Agenda Text:**

The Board is requested to review the proposed application elements and ask any questions they wish.

Durham County is an eligible applicant for up to \$750,000 from the NC Department of Commerce as part of their Community Development Block Grant (CDBG) Neighborhood Revitalization Program. Since 2013, all funds from this state program had been re-allocated to water infrastructure projects (such as our Rougemont Water System), but Commerce has been convinced to put some of it back into neighborhood revitalization. The program allows a broad range of uses to be funded. The funds that Durham County would be eligible for can only be used outside of the City limits.

Durham County has many revitalization needs, though it seems clear that at the moment, affordable housing needs would be the high priority. Because Durham County does not have in-house expertise in affordable housing, staff consulted with members of the housing repair collaborative as well as with Triangle J Council of Governments (TJCOG), which is playing larger, coordinating and facilitating roles for other, nearby counties relating to housing grants and work. Our partners are well positioned to determine where our priorities, their skill sets (for implementing projects), and available opportunities intersect, and their application proposal brought forward for today's discussion represents exactly that. They are prepared to work together to complete the application for our submittal. If we received the grant, the plan is for TJCOG to administer it, working through our high leverage, local and non-profit housing partners.

A valid application obviously requires a clear proposal, but also requires two public hearings to receive public input on the draft proposal. We have tentatively set those public hearings for August 13th and Sept. 11th, with the final application due by September 28th.

**Alignment With Strategic Plan:** More and better affordable housing options, including facilitating the repair of existing low-cost housing, improves outcomes across all domains of our Durham County Strategic Plan.

**Resource Persons:** Drew Cummings, Chief of Staff; Aspen Romeyn, Principal Planner - Regional Planning (TJCOG); Dan Sargent, Exec. Dir. of Rebuilding Together of the Triangle; Blake Strayhorn, Exec. Dir. of Habitat for Humanity of Durham; and Peter Skillern, Exec. Dir. of Reinvestment Partners

**County Manager's Recommendation:** The County Manager recommends that the Board review the proposed application elements and ask any questions they wish.

**18-0940****Service Contract with Durham Literacy Center****Agenda Text:**

The Board is requested to approve the service contract with Durham Literacy Center (DLC) to provide literacy services for individuals housed inside the Durham County Detention Facility. The Durham Literacy Center contract amount for Fiscal Year 2018-19 is \$100,725.63. This past year opportunities were identified to expand services provided by DLC. In the beginning of the partnership, DLC staff members focused on small group classes for incarcerated young people (ages 16 to 24) who wanted to earn GED diplomas or improve their life skills. DLC's main objectives are to provide high quality instruction, instill hope, set goals, and reconnect these young people to the community.

As the school year progressed, enrollment in both High School Equivalency and Job/Life Skills classes steadily increased. From October 2017 to May 2018 total enrollment nearly doubled. In February 2018, enrollment age restrictions were removed allowing detainees of all ages to voluntarily participate. In the 2017-2018 school year, DLC staff made 37 referrals to the Local Re-entry Program (LRC), 14 referrals to Project BUILD (gang intervention program) and 5 referrals to the Durham Literacy Center to enhance detainees' opportunities for success upon their release.

Of the 81 students who enrolled in the Job/Life Skills program, 31 completed a post-class survey. Of the students who completed a post-class survey, 100 percent either agreed or strongly agreed with the statements "Taking this class helped me develop goals for the future" and "Taking this class helped me develop a better plan for reaching my goals." Students enrolled in Job/Life Skills responded positively when they were given individualized help in creating their own resumes, cover letters, and letters of explanation (also known as disclosure letters), tools that they can "take with them" to enhance their chances of finding employment upon their release.

**Agenda Text:**

The Board is requested to authorize an additional \$4 million in Capital Financing Plan Fund fund balance to support Durham Technical Community College capital projects for a new Applied Technology building, renovation of the existing Newton Building and the construction of a new Facilities Services building. The increase is needed to offset cost resulted from the overall construction market. Estimate actual construction costs have increased since the original project were developed in 2015. The economic factors that have resulted in rising construction costs have impacted both residential and commercial construction projects.

Durham Technical Community College requests an additional \$4 million in county funds to support the construction of the new Applied Technology building, renovation of the existing Newton Building and the construction of a new Facilities Services building. The original project cost totaled \$22,061,016 and was funded by a combination of local and state funds. Of this amount, \$18 million was funded from the 2016 bond referendum. Due to the construction market factors, project costs are above the original budget projections.

The Durham Technical Community College Board of Trustees supports the request for additional funds. Upon authorization of the additional funds, the project moves forward for review and approval by the State Board of Community Colleges and construction oversight by the Office of State Construction. Although Pay as You Go funds will address the budget gap due to increased construction costs, the actual funds expenditures will not occur until fiscal years 2020 and 2021.

**Alignment With Strategic Plan:** The project aligns with Goal 1: Community Empowerment and Enrichment and Goal 5: Accountable, Efficient and Visionary Government.

**18-0887****Approval of Contract with Made in Durham (30 mins)****Agenda Text:**

The Board is requested to approve the attached contract with Made in Durham and authorize the County Manager to execute it.

Made in Durham (MID) is a collaborative of public and private sector partners in Durham who wish to improve education-to-work pathways for Durham youth ages 14-24 so that by age 24 as many of them as possible have at least completed a post-secondary credential and secured living wage work. There were several years of foundational work before Made In Durham was spun off as a separate non-profit. Fiscal Year (FY) 2018-2019 will be the fourth year that Durham County has supported the Made in Durham effort financially.

Made in Durham was formed because the partners did not believe existing mechanisms and collaborations were sufficient, but of course MID faces the same institutional and societal barriers to progress that existed before. The collaborative continues its work in identifying, highlighting, and working with institutional partners to try to fill knowledge gaps, service gaps, and other kinds of pathway gaps and blockages which inhibit regular movement of Durham's youth towards an economically secure existence.

The MID work plan for FY18-19 includes expanded business engagement and pathway creation, intensified work with Durham Futures organizations, further youth engagement, exploration of cradle-to-career continuum and ongoing efforts to acquire data and analysis that will give greater insights into areas of success in MID's work as well as efforts that require additional focus and perhaps changes in strategy. Thus far those efforts have been largely stymied by the inability to have 3rd party (Duke) researchers get access to Durham Public Schools data, but it appears that this issue is being addressed.

**Alignment with Strategic Plan:** A high-functioning education-to-work pipeline is both a cause and result of improved function and results in Goal 1: Community Empowerment and Enrichment and Goal 4: Environmental Stewardship and Community Prosperity of the Durham County Strategic Plan.

**Resource Persons:** Drew Cummings, Chief of Staff
