## **APPENDIX A - STANDARD PROVISIONS**

1. The Developer shall engage a professional engineer to prepare plans and specifications for the construction of all of the following required to serve the project:

### **SANITARY SEWER IMPROVEMENTS**

2. Unless otherwise provided in this contract, all construction shall be in accordance to County policy, standards, and specifications. All work shall be subject to inspection by the County or its designated representative. Inspection shall be provided according to County policy. A registered professional engineer shall be engaged by the Developer to provide construction inspections duties if directed by the County.

3. The Developer's engineer shall provide construction stakeout inspection and supervision duties.

4. All construction shall be performed by a contractor licensed to perform this type of work in the State of North Carolina. The contractor must be approved by the County before a contract is entered into between the Developer and the contractor. The contractor will construct all utilities according to construction plans and specifications approved by the Utility Division. Any unapproved alterations may not be accepted by the County, and will be reconstructed as to the approved plans and specifications by the Developer.

5. Before starting construction, the Developer shall secure approval of the construction plans and all necessary permits from the following:

The City of Durham

The County of Durham

The North Carolina Department of Transportation

The North Carolina Department of Environmental Quality

6. The Developer shall furnish the County record drawings on mylar, and by CAD file, along with a television inspection report of all lines eight (8) inches in diameter and larger. The County Engineer will specify format for each.

7. The County shall record all easements necessary for the project in the Durham County registry before the County shall assume maintenance, ownership, or provide service through any utility line constructed pursuant to this contract. If defects in workmanship or materials are discovered within one year of the date of acceptance, in work done pursuant to this contract by or for the Developer, the Developer shall see that such defects are promptly corrected at the Developers expense. The County may elect to correct the

defects and bill the Developer for the costs of correction. Failure to pay the County for the correction costs may result in the disconnection of utility service and or the institution of legal action to recover the costs of correcting the system.

8. The County shall designate the size and type of materials for all utility lines required to serve the project.

9. The Developer shall bear the total cost of all utility construction within the Project and the total cost of utility construction required to extend Service to the Project. Unless otherwise explicitly and specifically stated, the Developer shall bear the costs and expenses of all the obligations and duties created by this contract. The Developer shall hold the County harmless from any cost or claims associated with the construction.

10. The County may make extensions from any of the utility lines covered in this contract without the permission of the Developer.

11. Utility charges will be made according to County policy or ordinance.

12. Utility service shall be installed by the developer, including clean outs as specified.

13. The County may require any testing it deems appropriate to determine that the work complies with County standards and specifications. All such testing shall be at the Developers' expense.

14. The words "line" and "lines" shall include "main" and "mains" unless the context otherwise requires. "Sewer" shall mean "sanitary sewer".

15. No construction shall begin until authorized in writing by the County.
