

Advanced Oxidation Technology

Chemical Solutions for a Cleaner Environment

April 3, 2018

To Whom it May Concern:

The Advanced Oxidation Technology's products used by Source Technologies LLC are patented and controlled by Advanced Oxidation Technology's. As such Source Technologies is the only firm authorized and capable of doing sulfide control business using Advanced Oxidation Technology's products within the state of North Carolina. Durham County is listed as an exclusive customer of Source Technologies. The patents include both the product and process and therefore the equipment needs to be approved and provided by Source Technologies to ensure it meets process specifications.

Sincerely,

H.W. Cox Jr., Ph.D.
