Dear Mr. Manning:

The scope of work for the RPR shall be limited to the following:
 - a. Attend pre-construction meeting.
 - b. Weekly periodic on-site visits to observe are being performed in accordance with the contract documents prepared by the design engineer. The RPR shall not be responsible for means and methods or safety protocols employed by Contractor.

- c. Take photos and prepare daily inspection reports to document Contractor's progress.
- d. Attend monthly progress meetings, which are included as part of the 16 hours per week.
- e. Verify quantities of installed work performed by Contractor, but shall not be responsible for processing and approving monthly progress payments.
