MASK DURHAM

with

 RENFRO

MASK YOUR CITIZENS

As more businesses start to execute their re-open plans, the demand for face masks will continue to increase. Renfro is here to help you provide face masks for individuals and businesses.

Let us help ease your concern of securing a face mask with protective properties for your county citizens.

We partnered with the city of Winston-Salem to Mask the City and with the State of Tennessee to supply masks to their citizens. We can do the same for our sister county, Durham County.

OUR STORY

Nightingale is a new brand owned by Renfro Corporation, the largest sock company in the United States.

Nightingale face mask is built on innovation, collaboration, and community.

In response to the growing need for face masks, Renfro Corp created a mask uniquely designed with protective properties, and longer, more comfortable wear.

The breathable comfort masks were wear tested by medical staff and offered an immediate solution for people who need to wear them for extended periods of time.

THE DESIGN

Washable and reusable – durable in excess of 25 washings.

Proprietary Nylon/Lycra® mask ties that have 4x the stretch of common elastic and provide soft comfort reducing marks or discomfort when wearing for an extended period of time.

Proprietary tri-zone pocket – scientifically engineered nose and mouth pocket with narrower nose and wider mouth pocket. Specific gore construction unique to our masks.

Copper Oxide imbedded yarns in mask construction. Breathable material for added comfort

Branded with the Nightingale logo. One size fits most.

Made in the U. S. A.
