

Agenda Action Form Overview

The Board is requested to approve this Budget Ordinance Amendment No. 21BCC000021 to recognize funds in the amount of \$5,384 from the Centering Healthcare Institute.

Background/Justification

The term "Centering" comes from the belief that health care should be centered or focused on the individuals participating in the care experience at any given time. This includes the individual patient, group, and clinical care providers.

Centering is a team approach to care that actively engages patients in goal-setting, skill-building, and peer support.

The Centering model of care brings people together who share common goals, but their personal preferences and values make each group unique.

Beginning during the second trimester, the Centering model is designed to extend to delivery. It integrates three major components of care: health assessment, education, and support.

Policy Impact

This action is consistent with past actions and does not require any exceptions or new additions to Board policy.

Procurement Background

Not applicable

Fiscal Impact

Recognition of funds will provide additional resources to allow the Department of Public Health to provide telehealth Centering pregnancy services.

Recommendation

The County Manager recommends that the Board of County Commissioners approve this Budget Ordinance Amendment No. 21BCC000021 to recognize funds in the amount of \$5,384 from the Centering Healthcare Institute.
