Item:

Award of Contract to Schneider Electric for Regular Preventative Maintenance Services on the BAS and Security Access System

Date of BOCC Meeting: August 12, 2019

Request for Board Action:

The Board is requested to allow the County Manager to enter into contract with Schneider Electric in the amount of \$256,702.00 for annual preventative maintenance services on the County's BAS/security access system, and to execute future annual service renewals if within the General Services budget. BAS (Building Automation System) is a proprietary system of Schneider Electric that controls the heating, air conditioning, and security card access systems in many County owned facilities.

Alignment with Strategic Plan: Upkeep of the card access system falls in line with Goal 3-Safe and Secure Community; while Maintenance of the building automation system conserves energy and resources which is in line with Goal 4-Environmental Stewardship.

Resource Persons: Motiryo Keambiroiro, Director of General Services; Shawn Swiatocha, Assistant Director of General Services; Joel Jones, Quality Control and Contract Specialist

County Manager's Recommendation: The County Manager recommends that the Board allow the County Manager to enter into contract with Schneider Electric in the amount of \$256,702.00 for annual preventative maintenance services on the County's BAS/security access system, and to execute future annual service renewals if within the General Services budget.

County Manager: _____
